

SC4000 Mastershade® Magnetic Lock Screen System

**A rolling screen with Cassette, Cables, & also
available with optional magnetic locking devices**

The SC4000 is an exterior cabled rolling solar screen for small to large windows and porches. The system is available with standard cables. For windy locations, the optional magnetic locks are available for extra stability. With the magnetic locks installed, the screen fabric remains taut when the screen is in its lowered position. If a wind gust lifts the hem bar, the magnetic lock will release the screen fabric from the pressure and then the magnetic lock system will automatically reposition the hem bar back into the lock.*

*Note: The magnetic device does not guarantee that strong winds will not damage the unit and is not a substitute for using caution.

MAX SIZE Standard cables: 22 ft. Wide & up to 14 ft. High (smaller widths at larger heights)

MAX SIZE Magnetic Lock cables: A16ft. Wide & up to 14 ft. High (smaller widths) (Maximum height depends on fabric type and width).

OPERATION: A gear/crank set is standard on the SC4000. A convenient push-button motor is also available with a hand held remote control

RECOMMENDED FABRICS:

Soltis 86 (14% open)

Para acrylic fabrics

Standard Cables

Magnetic Locks

14% open mesh

MOTOR OPTIONS

SOMFY MOTORS feature an integrated radio receiver that allows you to operate the screen by remote. The optional "Ondeis" rain and sun sensor will lower the shades automatically when shade is needed. A wind sensor can be added that gives the extra protection from wind by retracting automatically.

CUSTOM COLORS ARE AVAILABLE

Frame colors may vary due to printing process

The magnetic locks will guide the hem bar on the stainless cables into the bottom cradle and lock in place. The fabric remains taut and locked unless released by wind.

* Note: The magnetic device does not guarantee that strong winds will not damage the unit and is not a substitute for using caution.
